GREENFIELD ORG

https://greenfield-org.github.io/

PROFILE

Self-taught programmer who excels at adapting to different technology stacks and working remotely in a small team. Through personal projects with a mentor, and working with various clients, has learned various tech stacks, project management, version control, and client interaction.

EXPERIENCE

JUNIOR DEVELOPER

Greenfield Org

2021 - Present

- Collaborated with senior developer to select ambitious, but realistic coding milestones projects.
- Used Javascript, HTML, and CSS to build projects.
- Designed wireframes via Figma for clean UX/UI.
- Used agile working methods to ensure timely project completion and team communication.

APPRENTICE PROGRAMMER

Mentored via Greenfield Org

2020-2021

- Collaborated with senior developer to select ambitious, but realistic coding milestones projects.
- Progressively used HTML, CSS, JavaScript, and React to build multiple projects.
- Designed wireframes via Figma for clean UX/UI.
- Used agile working methods to ensure timely project completion and team communication.
